5. **Motion to Enforce the PNB Resolution to Seat Robert Gartner on the KPFT LSB – PNB Officers** 10 min.

   Once again we are directing the KPFT LSB to seat Robert Gartner. We have every hope that the KPFT LSB will comply with the PNB Resolution to seat Mr. Gartner which is based on an opinion by Pacifica Counsel and afford Mr. Gartner due process. However, if the LSB fails to seat Robert Gartner the PNB will take the action of suspending the rights of Committee participation on the part of KPFT Directors and Delegates on Committees of the Pacifica National Board until such time as the KPFT LSB comes into compliance with this PNB Directive.

   Jan Goodman moves that this item be moved to closed session. Chair rules against this. 10:04 pm

Motion to Establish Voting Process for Elections of PNB Officers and Director Representatives to PNB National Committees, by Steinberg

Voting for the following elections shall be by Instant Runoff Voting to elect one Director to each position, in accordance with prior and current Board policies and practices: PNB Chair, PNB Vice Chair, PNB Secretary as well as one Director from each station for each of the following Committees: Finance, Audit, Coordinating, Personnel, Programming, Strategic Planning, Development, Elections, Governance.

The elections for PNB Officers will be held separately from the elections for one Director from each station to serve on PNB Committees. The timeline below is for the elections for Officers. The timeline for Committee elections will be determined at our next PNB meeting.

The Current Secretary or Secretary Pro Tem shall e-mail ballots for the elections for PNB Officers and voting instructions to the PNB Directors, before midnight Eastern Time on March 27, 2020. The ballots shall be returned to Terry Goodman who shall be the Election Teller, and to Michael Novick who shall be the Secondary Ballot Recipient, with the ballot return deadline being midnight Eastern Time on March 30, 2020. The Teller and Secondary Ballot Recipient shall tabulate the ballots in a public tally via webstreamed conference call no earlier than April 1, 2020, and shall notice how the tally can be heard or viewed in advance. Election results shall be reported by the Teller to the PNB via email before midnight Eastern Time on the date of the public tallies.

Email of Wednesday, March 25th from Terry Goodman to the PNB Secretary about the change in election protocol:
I'm flexible, but in the past we've had to adjust the timeline to the schedule of the Secondary Ballot Recipient and the availability of a public venue. For a working person in Houston, that meant a schedule that allowed for a public tally in Houston mid-day on a Saturday.

The ballot integrity provisions in the email balloting system I've designed are in the individual ballot codes and the transparent reporting. The secondary ballot recipient serves the purpose of keeping the Teller honest in approving or rejecting ballots and interfacing with voters. The printed ballots are an anachronism and the public tally serves no essential purpose outside of resolving ties. Accordingly, under coronavirus shelter-in-place rules, I'll suggest a public tally via webstreamed conference call.

With an online rather than a public tally, this may add new candidates to the ballot recipient candidate pool; but my anticipation is that you'll be lucky to find one non-Director to serve as Secondary Ballot Recipient. I don't know who the current directors are, so I don't know who to suggest.

In the event of a tie on a conference call, we won't have witnesses for a coin toss. We could probably have the election staff agree on the conference call that if the final number in a stock market index, rounded down to a whole number, is odd at the end of the next trading day then candidate A is eliminated and if the final number minus any fractional overage is even then Candidate B is eliminated. A possible such number is the Dow Jones Industrial Average Daily High for the NYSE, which is currently the first number reported at the end of each trading day in the online chart at https://www.wsj.com/market-data/stocks/us/indexes.
